Hej.

Blir både stolt, glad o entusiastisk.

Ser dock att tiderna var svåra att "pricka in", har fullt förtroende för er som tänker/kan delta och ser fram mot en återrapportering.

Mvh. Mats

"Thore, Anna" <anna.thore@wspgroup.se> skriver:

Goda nyheter!

Vi har blivit antagna till Zennströms stiftelsens (skypes grundare) project Baltic Sea City Accelerator som deras första pionjärer!

Tanken är att vi som föregångare i kustmiljöarbetet ska få hjälp att intensifiera det vi redan gör och sprida det till fler. Ännu vet vi inte vad det betyder i hjälp med konkreta åtgärder men som allra minst betyder det hjälp med värdering av kostandseffektiva åtgärder, målformulering och uppföljning samt synas i Sverige som gott exempel!

Vill ni delta ser ni datum nedan, i annat fall deltar jag på dessa tillfällen.

Anna

Ämne: Welcome Pioneers / Baltic Sea City Accelerator!

Congratulations!

It is with great pleasure that Race For The Baltic and partners officially welcome you and your municipality to the Baltic Sea City Accelerator Programme as the very first **PIONEERS**.

The BSCA programme aims to accelerate on-the-ground action in local communities for a vibrant Baltic Sea and prosperous region, while connecting the region's municipal leaders. Between now and April 2017 we will join forces to develop and share the local 'Blue Baltic Sea Business Case'. The work that we do during the coming year will set the foundation for the future of The Baltic Sea City Accelerator. By 2020 we envision that 100 municipalities around the Baltic Sea have signed up for joint action to restore the Baltic Sea and capture environmental, economic, and social benefits. Through partnership and collaboration we can achieve greater impact. We look forward to exploring this innovative process together with you and demonstrating a path forward for healthy local waters and economy.

Next Steps:

(1) Please save the important dates below

<https://dub126.mail.live.com/ol/mail.mvc/PrintMessages?mkt=sv-se>

2016-03-02

(2) The Accelerator experts will visit as many cities as possible during the coming month. Please let us know which days would work for you between March 1-April 11.

11 March 9.00-10.00 Stockholm time / Conference Call introduction to programme to go through timeline, activities

1 March-11 April / We will visit as many cities as possible. Please let us know which days would work for you.

April 2 days / Innovation Lab in Stockholm. We will check with you about dates. We ask your City Mayor to participate on the first day.

7-8 November / Innovation Lab in Stockholm (tentative date)

April 2017 / Final Event & Award Ceremony date to be confirmed

Warm welcome to the following municipalities!

Slupsk
Mariehamn
Panevezys
Kalmar
Västervik
Värmdö
Vaxholm
